

Kids Learn ABC

Thanks For Purchasing Kids Learn ABC Mobile - Ready to publish pack

Getting Started Guide

First, let's import the product into Unity, if you haven't already done so. Open Unity, create a new empty project and import the package with Kids Learn ABC Mobile.

Now open a main scene of the game. It is located by next path: Kids Learn ABC Mobile/ Assets/Scenes/Splash Screen

If you have any problems or additional questions, you can contact me directly by email. Here is my address:
